

Dullingham January 19th 1712

I received this day your Joint letter wth the inclosed from
Coll: Lambert who by his former letter seemed to have
a prospect of what since happened as to if damage done
to my Plantation wth was not done by Capt: Burnwell
but by Major Gilliard his Partner ^{as I was advised}
last Summer, so to doe and might have prevented
from so doing, if the Governour had been pleased to
interpose his authority but my letter must have come
to late to have regulated that favour of him, Therefore
I told you when we treated That I could onely let of
Plantations wth the Appurtenances whateber they
should bee for I could not then tell what was upon it
and if the State and condition be worse than when
I received the proposals in other respects it is now
become much more valuable by reason of if Island
will be now entirely of English and the damages
Sustained by the war and Hurricanes in other Islands
will make Sugar a most valuable commodity, and
consequently Plantations more worth, I give sincere
credit to Coll: Lambert writes but care, but think it
strange that Capt: Burnwell and Major Gilliards dwelling
houses and the Boiling houses Sugar Works and Mills
should be destroyed as if an enemy had invaded of Estate
only and doubtless Satan was there for ^{somebody is} somebody is
answerable and I leave it to you, Judge whether of whose
man who Coll: Lambert put upon the Plantation did
nothing there and whether he Suffered my Negroes to Ede
I know they might have come tops for cutting of wth cane
and question not but if they have planted good Store in the
right season the Coll: having notice that we were agreed upon
Terms from wth I doe not intend to depart but if you doe
that fault and blame must lye at yo^r door for I dont
know what you can expect from me more than I have
done to put an end to this affair and give me leave to
say that it is you and M^r: Merrinweather that have been
long wanting on your parts to execute if agreement
made with me into wth if once wee make a breach
I dont know where or when it may end therefore I must
Insist upon it and abide by it, I hope you dont think
but if I can have 200⁰ of Minum worth the security
for my share of Plantation in if condition it is in as case
now stand wth that Island but I am nonwavering or
unconstant and I love to be better than worse than
by bargain and I have a great value and esteem for
Coll: Lambert and shall cordially embrace so good a man
wth my humble service to you both concludes this
from him that is

gentlemen

yo^r very humble servant
